## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jon Falkler on 04/23/2009.

The application has been amended as follows: Claims 24 and 25 have been cancelled.

### ***Allowable Subject Matter***

1. Claims 1-23 are allowed.
2. The following is an examiner's statement of reasons for allowance: A device for the application and/or for the removal of elements for the connection of a rail to a railway track sleeper, comprising: - at least one lever mounted on a frame so as to be able to rotate around an axis of rotation and equipped with at least one pressure organ adapted to engaging the connecting element; - at least one cylinder-piston group adapted to driving the lever in order to assemble or disassemble the connecting element, said cylinder-piston group comprising a cylinder body connected to said frame and a piston slidingly housed within the cylinder body and movable with respect to the

Art Unit: 3617

cylinder body under the action of pressurized fluid acting on said piston inside said cylinder body, - at least a first and a second stop surface cooperating in such a way as to form a stop device for stopping the lever in a defined position with respect to the frame, wherein said stop surfaces are formed, one of them on the piston and the other one on the cylinder body of said cylinder-piston group such that, when said first stop surface abuts against said second stop surface, said piston stops in a limit position with respect to said cylinder body and wherein said piston is connected with said lever in such a way that, when said piston stops in said limit position, said lever stops in said defined position with respect to the frame, is seen as an unobvious improvement over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
